

# KCI Scheidt

# Shuttle System

## Self Propelled Mode

This revolutionary new concept is simple and field tested to be fool proof. The KCI "Shuttle System" is designed to use much of your existing nut harvesting equipment.

## Tractor powered Mode

## Rear Door Model

## Dirt Chain Option

- \*Self Propelled model can operate conveyor by remote control from inside Air cab.
- \*The shuttle cart and conveyor are a perfect match providing for virtually little or no spillage at the conveyor.
- \*Shuttle cart belts are fastened to steel slats and heavy dual chain drives that ride on UHMW runners.
- \*Axle positioning on cart is adjustable and can be tailored to fit your particular operation.
- \*The conveyor is powered by a 40HP Deutz diesel engine and is supplied with a dual element Donaldson air filter and safety shut down switches.
- \*Conveyor belt returns on long wearing UHMW runners.
- \* You can add the system components as production and budget will permit.
